Established in 1954, Fras-le is engaged in the manufacturing of friction materials. The primary focus of Fras-le's business is **safety in motion control**. Fras-le is one of the largest companies in Latin America and one of the leading companies in the world in its field. It was the first friction material manufacturer in Brazil to obtain the ISO 9001 certification. Fras-le has also achieved the ISO 14001 and the ISOTS 16949. These certifications confirm the company's constant concern with quality, technology and the environment. In its advanced research and development center - one of the best equipped laboratories in the world - Fras-le has a chemical, physical and pilot laboratory that enables it to develop high-performance products. With its plant in the state of Rio Grande do Sul, Brazil, distribution centers in Argentina and Europe, and trade offices in the United States, Chile, Mexico, Germany, the United Arab Emirates, South Africa and China, the company maintains a trained team to meet the expectations of customers located throughout more than 80 countries on five continents. Fras-le provides products with the quality of original equipment to ensure safety, efficiency and quality to OEM companies and the aftermarket. There are more than nine thousand different parts in Fras-le's and Lonaflex's product ranges. Fras-le is a Randon Group Company.
